

- ✓ Cut down on late payments
- ✓ Improve cash flow
- ✓ Improve customer service
- ✓ Provide online portal so customers can manage their own account and payments
- ✓ Automatically update customer account in Visual RAMS-Pro

MyOnlineBill provides a payment portal that integrates with customer's website or with VRP-W. An application link on their website will send them to a secure login. Customers can securely pay then, schedule auto-pay and/or one-time payments 24 x 7. Payments update customer account real-time. In addition, MyOnline Bill also provides print invoice mailing that integrates with VRP as well.

What Your Customers Sees
